Subject: Solar workshop/discussion Sept. 12

Hello,

I am looking forward to the solar workshop the PSC is holding on Sept. 12. I think the electric coops have said they are not ready for a discussion and would rather it be postponed. No one said this issue needs to be limited to a one-time discussion. The fact that solar is linked to the issue of the utilities being backup for electricity and entitled to a fair base fee is all the more reason to start educating those interested in solar about all the aspects.

Thanks for letting us get started.
Joanne Williams, SCEG customer
